Subject: RE: Exide - List of Engaged Agencies

Good Morning,

One more question. I went on the Exide site and read that there are ~6,200 Parkway areas >80 ppm. Is there a estimated clean-up cost and is there funding for the clean-up?

Thanks

Edwin "Chip" Poalinelli

Hi Chip,

For the facility, we coordinate with:

1. South Coast Air Quality Management District (SCAQMD),
2. Los Angeles County Sanitation District (Waste Water Discharge Permit),
3. State Water Resources Control Board (Notice of Intent, General Permit to Discharge Stormwater associated with industrial activity)

For the residential cleanup, we usually work with the following offices:

1. Los Angeles County Department of Public Works (LACDPW)
2. City of Los Angeles Department of Public Works
3. City of Commerce Public Works Department
4. City of Maywood Department of Engineering and Public Works
5. City of Huntington Park, Public Works Department, Engineering Division
6. City of Bell Public Works Department of Community Services
7. City of Vernon Public Works Department
8. South Coast Air Quality Management District
9. California Department of Public Health
10. Underground Services Alert of Southern California/Dig Alert

I hope this helps.
Thank you.

EXTERNAL:

Hi Mehdi,

Do you have a list of engaged agencies on the residential and facility clean-up? I looked on the website and found ATSDR, LA County Health, SCAQMD, City of Vernon. Are there any others I should highlight in a collaboration strategy?

Thanks
